

Student Accident Insurance

We are once again offering you the opportunity to purchase Student Accident Insurance for your child. The enrollment form may be obtained from the agency website at www.colonnainsurance.com.

Please note that while the school has liability insurance, this covers injuries to pupils only if liability is proven against the school. The school does not pay for routine accidental injuries. The student accident insurance pays claims on a primary basis and covers accidental injuries regardless of liability. The exclusions and limitations are explained in the brochure.
